

THE TRUTH ABOUT

VACCINE PASSPORTS - THIS AFFECTS EVERYONE

The vaccine passport is just the stepping stone towards total control

This is an insight into how the state will have **total control** over **all aspects of your life** via a **Social Credit System**

- **Digital currency** - will control your finances and every transaction.
- **Facial recognition** - will control your movements via surveillance.
- **Benefits** - you will be required to do unpaid work to qualify.
- **Internet use** - your opinions will affect your social credit score.
- **Social life** - control by your employer or an "authorised neighbour."
- **Reputation** - you will be scored depending on your conduct.
- **Productivity** - A sensor to detect body activity will monitor how much you work and sleep and give/remove credits accordingly.
- **Social credits** - awarded for good behaviour or docked for a messy garden, gossiping, jaywalking or littering.
- **Poor Social credit score** - will mean you face public shame or are blacklisted from getting a job or travelling.
- **Diet** - control over how much alcohol or unhealthy food you consume.

It's not about your health...

- Rishi Sunak announced that the Government and Bank of England have been working on a new digital currency to replace cash. Replacing cash with digital currency will enable the (Chinese style) Social Credit System to be introduced, which our government is currently considering.
- On 'Freedom Day' the Government published plans to make digital identities as trusted passports, and hours later, announced they were introducing Vaccine Passports. They also plan to introduce 'rewards' for healthy eating under new obesity plans.
- Medical Apartheid - The introduction of a Vaccine Passport and mandatory vaccination for carers in the UK will remove the rights of the unvaccinated. Do you believe they will stop with carers? Or will it set a precedent for mandating this on other sections of society and eventually the entire population?

It's about control...

- Mandatory vaccination violates human rights and the Nuremberg Code, which was drawn up to prevent the Nazi atrocities of WWII being repeated.
- The Government is in breach of human rights in mandating a treatment that some people are reluctant to accept for personal reasons and beliefs. These people are not ANTI anything, they are PRO choice. Scientific tyranny is the end of all freedom.
- The Government signed a contract with Entrust to provide a digital passport for your smartphone which will be an upgrade to the NHS app. Delete these apps.
- France implemented a Green Pass (vaccination ID) on 1st August to enter theatres, sports venues, restaurants, shopping centres, planes, trains, hospitals etc. The penalty for not showing a Green Pass will be up to 6 months in prison and up to €10,000 fine, and up to €45,000 to the venue.
- Hundreds of thousands of French citizens are protesting against this assault on their freedom, in cities and towns throughout France (240 protests on Saturday) and likewise in countries worldwide. Please note none of these protests are being reported in the mainstream media. Why not?
- We are the United Kingdom. The roll out of Universal Basic Income (UBI) with all the 'credits and debits' described here is going to be started shortly in Wales and there will be no turning back. Wales is the guinea pig, as Cyprus was the 'bail-in' for the banks when money was taken directly from bank accounts, and the 'land grab' in New Zealand. Note, all are small 'compliant' countries.

Are you concerned about the Government's plans?

If like us you are concerned, come and meet like minded people.

We stand for freedom...

Come and meet like minded people in your community...

A STAND IN THE PARK

Every Sunday @10am - 11am

Find your local park by visiting www.astandinthepark.org

MAKING A STAND FOR FREEDOM
